

This year I plan to use the Ron Larson's Pre-Calculus textbook. The extended ISBN is 9780669417418, and can be purchased used from Abebooks using this link: <http://www.abebooks.com/book-search/isbn/9780669417418/page-1/> I have used www.abebooks.com and like it. On their website, I enter the ISBN and then search booksellers with a rating of 4 stars or more. On that site, I saw a book for as low as \$1.48. If you want to go with Amazon, they tend to refer you to the same booksellers as Abebooks does.

I have looked for a good deal on the solutions manual, but unfortunately, it is a bit more expensive. The extended ISBN is 9780669417449. Here is the link on Amazon: http://www.amazon.com/gp/offer-listing/0669417440/ref=dp_olp_used?ie=UTF8&condition=used. They have one for \$50. I am not sure how much it would be to copy (it is rather large), but we can also go that route as well. It is up to you.
